

***Expansion
and Development
of the
Public Governance***

Mission

Logos P.A. is a public and private foundation supporting public administration with resources and professionalism.

The foundation offers workshops where public and private operators meet in privileged encounters with the aim of encouraging the development and spread of management duties.

The goal is to create a network between public operators, professionals and citizens and make it work as an efficient tool, a high profile profession generator and at the same time a multiplier in terms of UTILITY, VALUE AND DEVELOPMENT

Goal

Create an instrument that will join and support public administration in the administrated communities;

Research activities, training and help for the central and local bureaus with the renewal and the coordination of policy reforms.

Assist public administrations in the operative management of different activities and institutional tasks with the aim of improving the quality of the supplied services;

Promote innovative solutions and exchange positive experiences through forums and meetings and through realization of specific projects.

Strategic assets

The foundation has identified a few particular strategic assets:

Asset 1
